BRETANY®

2022

ISO 9001

Years of persistent operation in the sanitary ware industry, we have become committed to providing the highest level of customer service and a comprehensive product offering, endeavour to grow up into a leading sanitary ware manufacture with a global strategic vision and brand philosophy of diversification.

Following the technological revolution in the recent years, as at that time when we begun our ceramic production, handcrafting every single product was our daily routine that lead us to master the art of clay manipulation firing. Advanced production technology and strict quality standards became our guarantees to produce high quality products.

Looking ahead, we persists in following our guidelines of "Function optimisation, user-friendly products, Modern designs and quality" to achieve our goals of consistent growth that is characteristic of a world class business.

PRODUCTION PROCESS

QUALITY

Moving through time eras, the pottery making has always been a special art to design and to handcraft.

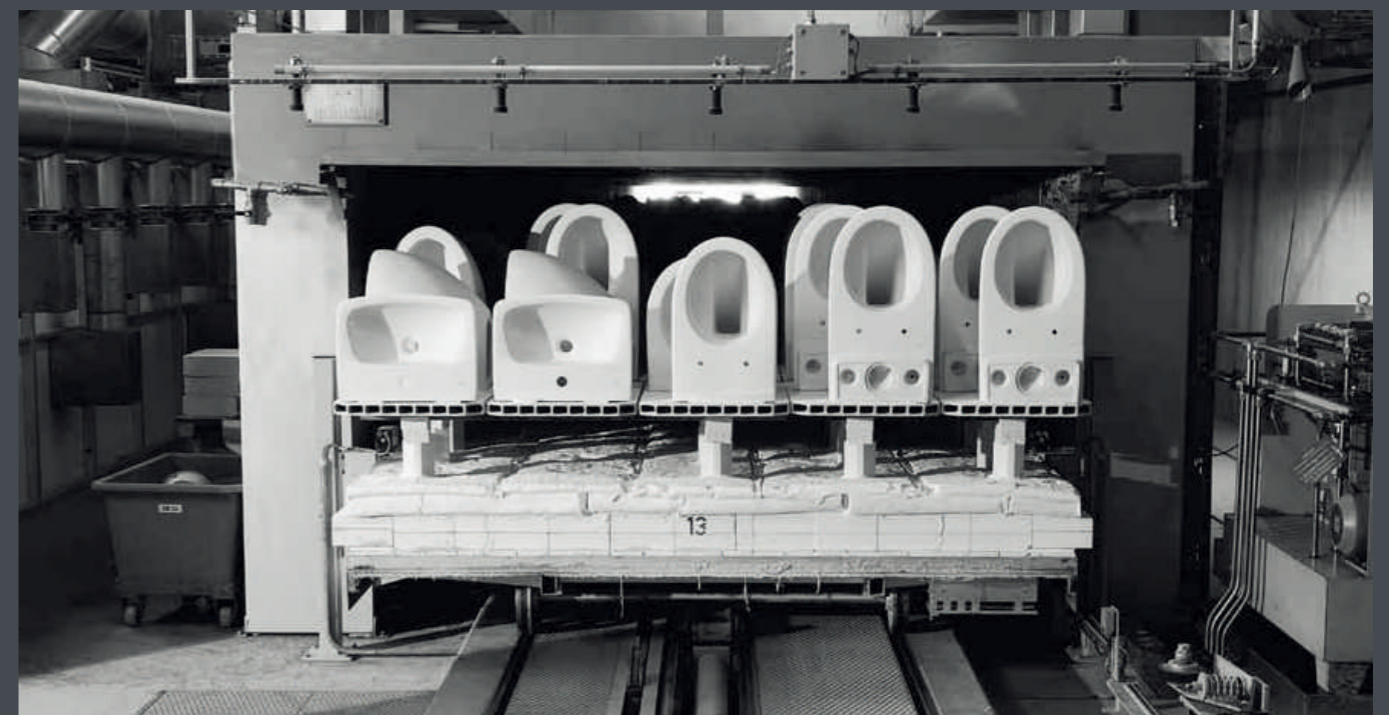

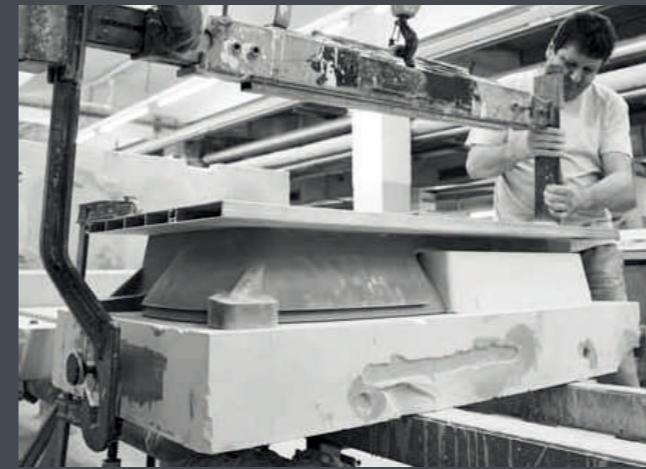

New technologies has paved the way for more precision manufacturing, however the human touch could never be avoided.

We take inspection very seriously
Strive for excellence at every production process.

In constant motion to develop new classy, practical and stylish designs using the best available technologies.

PRODUCTION WORKSHOP

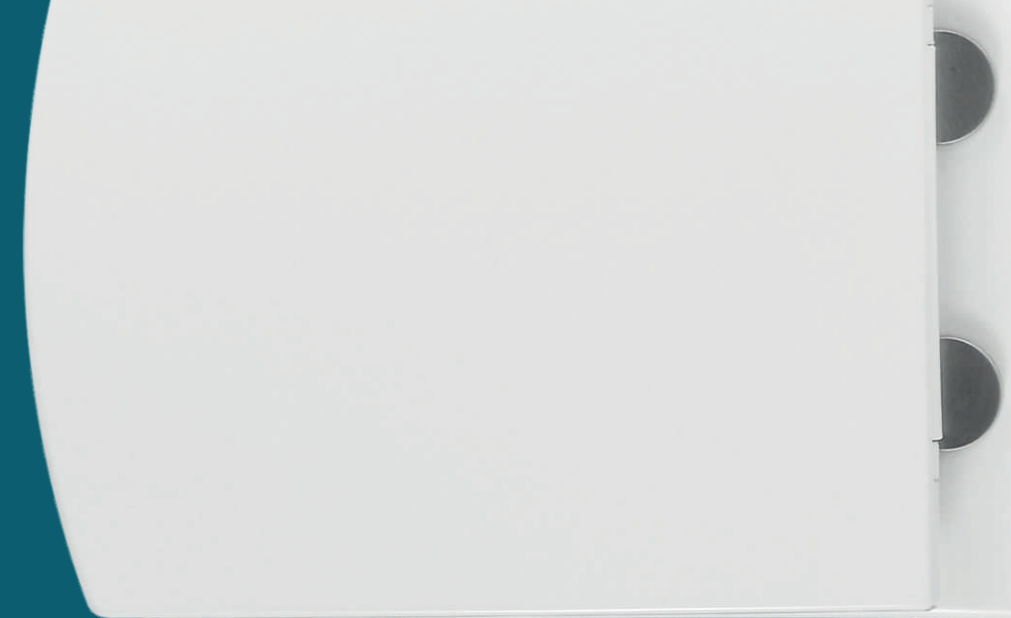

EFFICIENT YET PERFECT PRODUCT
COMPLETION

Multiple filtration levels and high quality glaze is used to ensure that our products can be as white, pure and smooth as they can be.

Modern cutting edge glazing production line, with dust-free workshop, multi-level filtration process and brilliant glazing technics.

ENJOY DESIGN

DESIGN, INTELLIGENCE MADE VISIBLE
FUNCTIONALITY, INTELLIGENCE MADE USEFUL

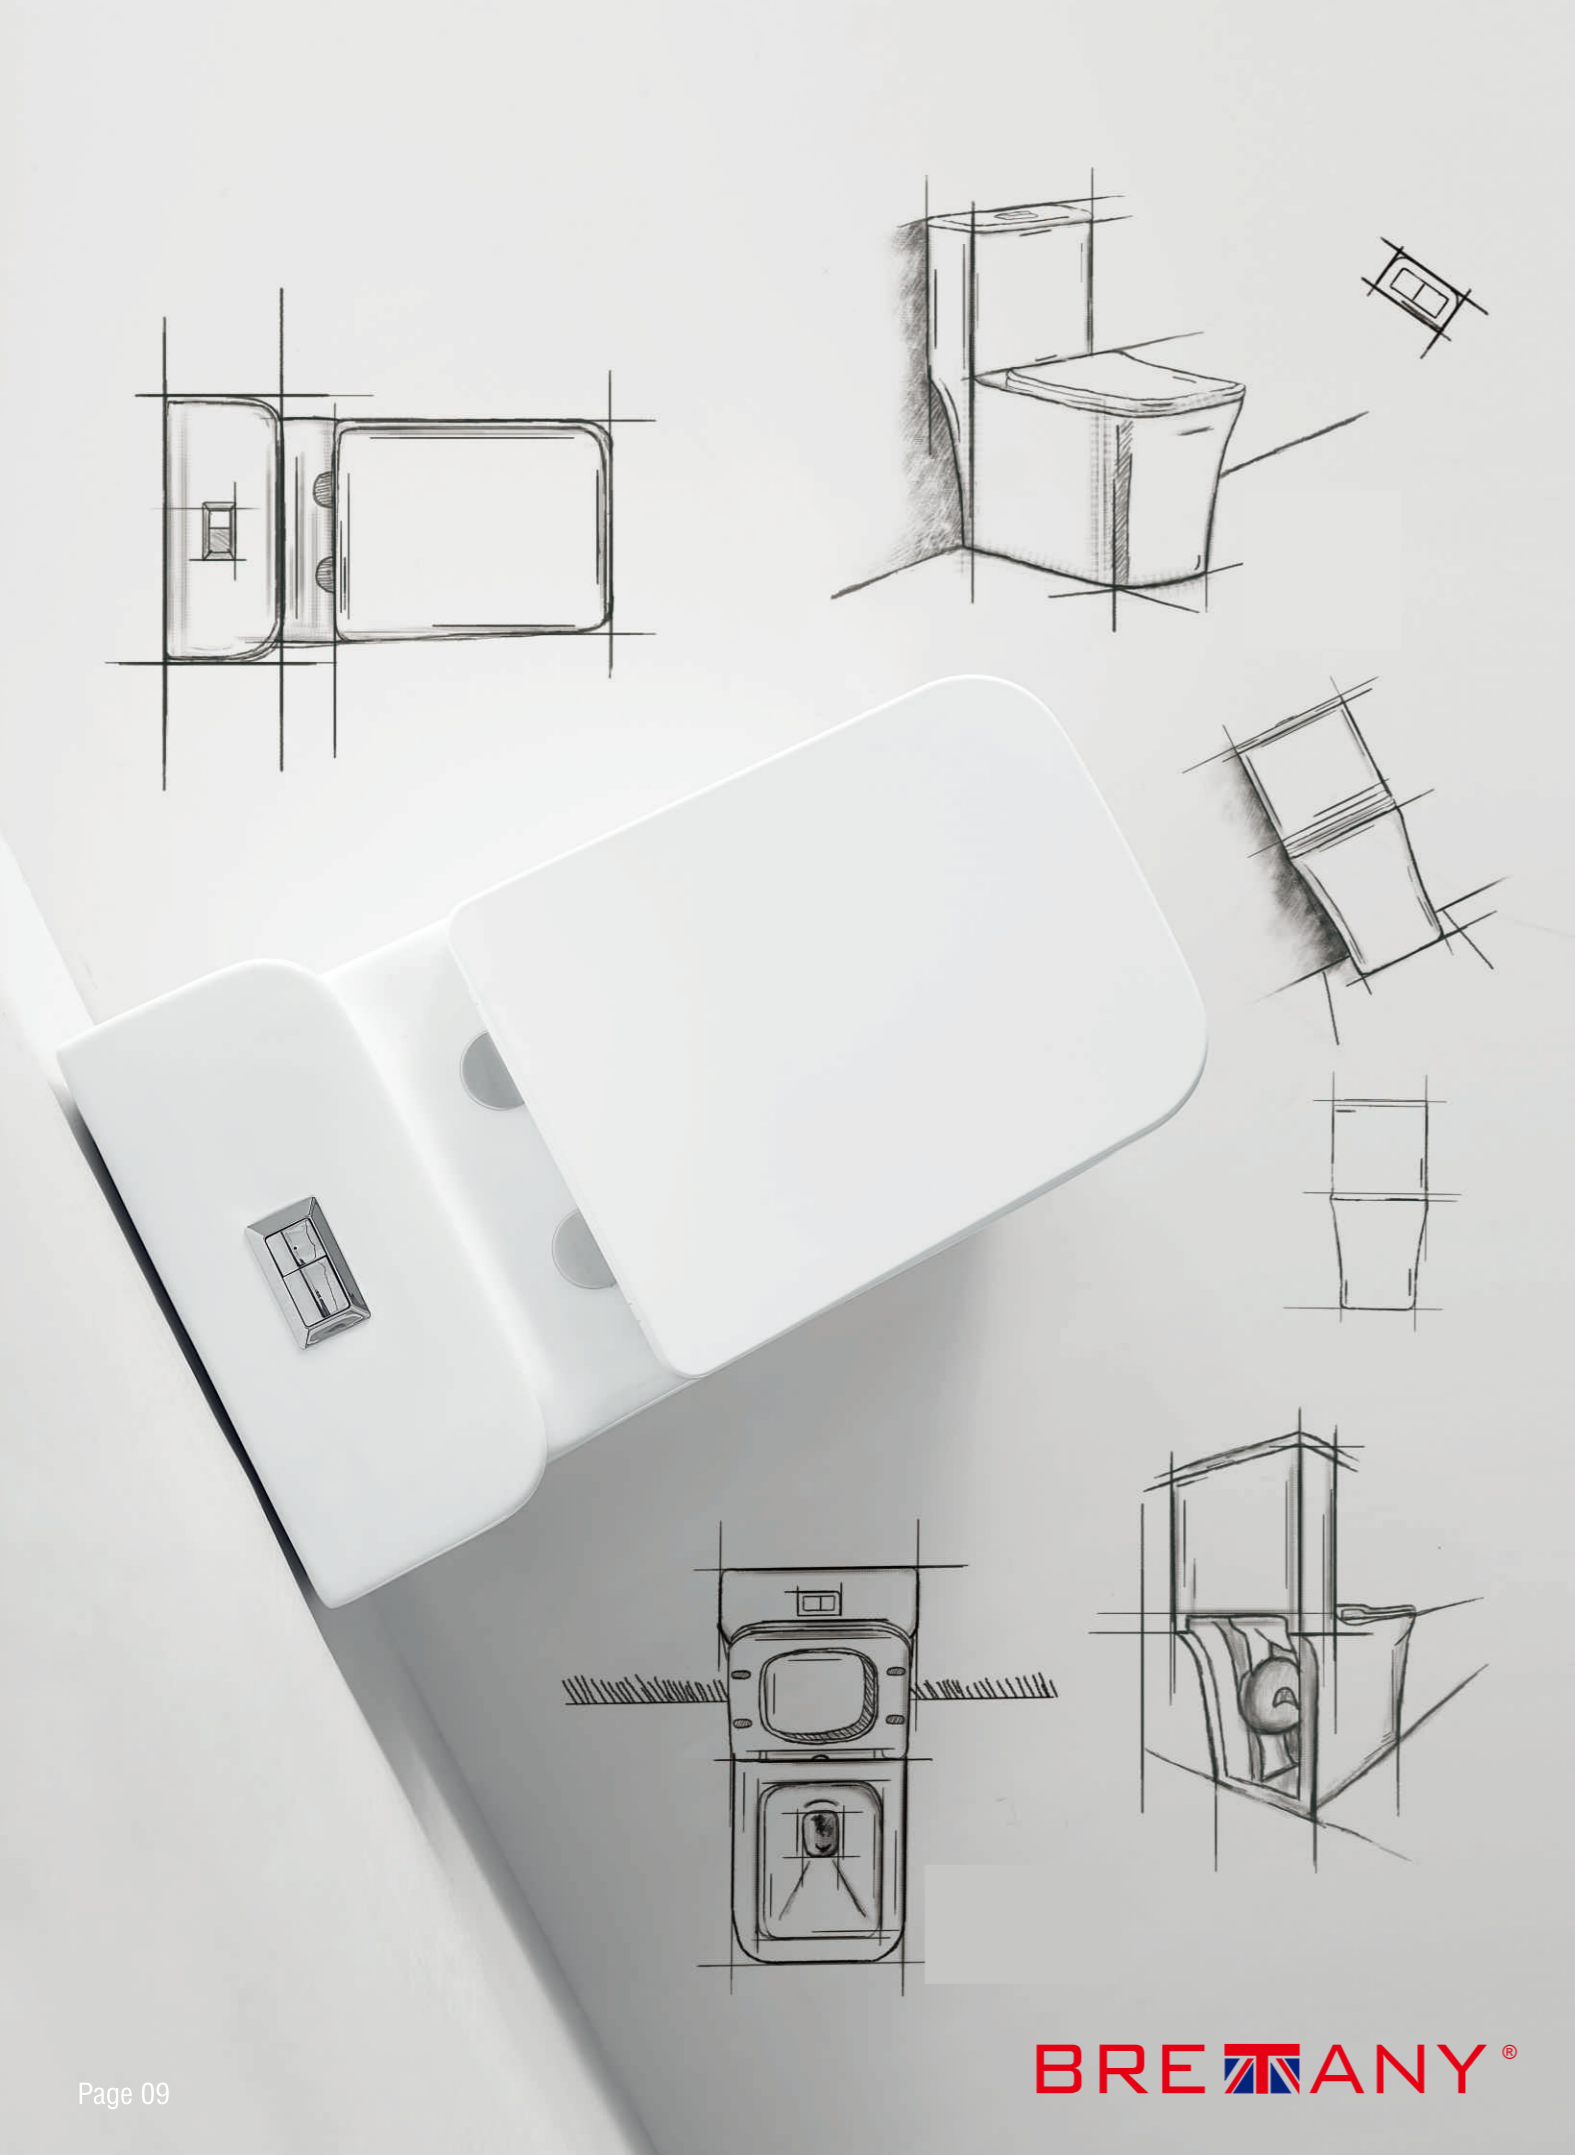

INTELLIGENT SIMPLICITY

CLEAN

Escape the complicated life
Vivid beauty simplifies what is complicated

Dual Flush System

Dual flush design serves as water saving function and ensures complete flushing.

Soft Close Toilet Seat

Soft close toilet seat, is a slow drop down to eliminate seat and cover closing bangs and noise.

Quick Release Toilet Seat

The toilet seat adopts a quick release technology, the seat can be taken off by pressing the 2 buttons on the seat. Very easy toilet seat removal and installation to ensure hygiene and safety in the bathroom.

Crystal Glazed Finish

Crystal Glazing is high grade glazing material used with the new nano technology, fired at strictly controlled temperature of over 1280 degrees celcius ensures smooth surface finish not only on the external parts of our products but also in trapways. That reduces the risk of bacterias and microbes build-up and bad odors.

Using nano technology, makes the toilets easier to clean.

- 80% reduction in cleaning time*
- 80% reduction in detergent use
- 80% less water usage to clean the toilet

A special glazing formula for bacterial reduction properties.

Easy Clean Surface

High glazing quality is carried out by high firing temperature to ensure smooth surface for easy cleaning, High temperature glazing eliminates colour changes and surface degradation.

Glazed Trapway

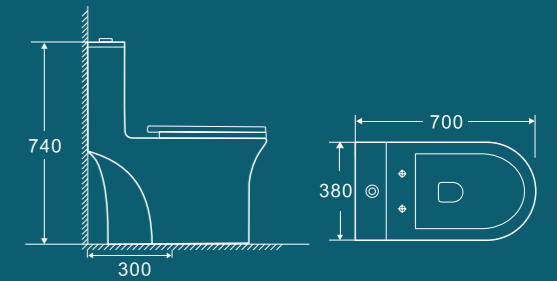

Glazed trapway brings smooth finish to the tapway which reduces frictions and dirt attachment to inner walls. Being the hardest place to reach, the inner surface of the trapway accumulates dirt through time as they don't get cleaned. Trapways get blocked due to dirt accumulations on the inner walls.

ELEGANT ROMANCE

CLASSIC

Design and functionality come together to maximize space and light volumes lend themselves well to describe minimal shapes with pure lines.

A practical solution for those who choose the washbasin framework. Just for a better life.

ART BASIN

BREANY

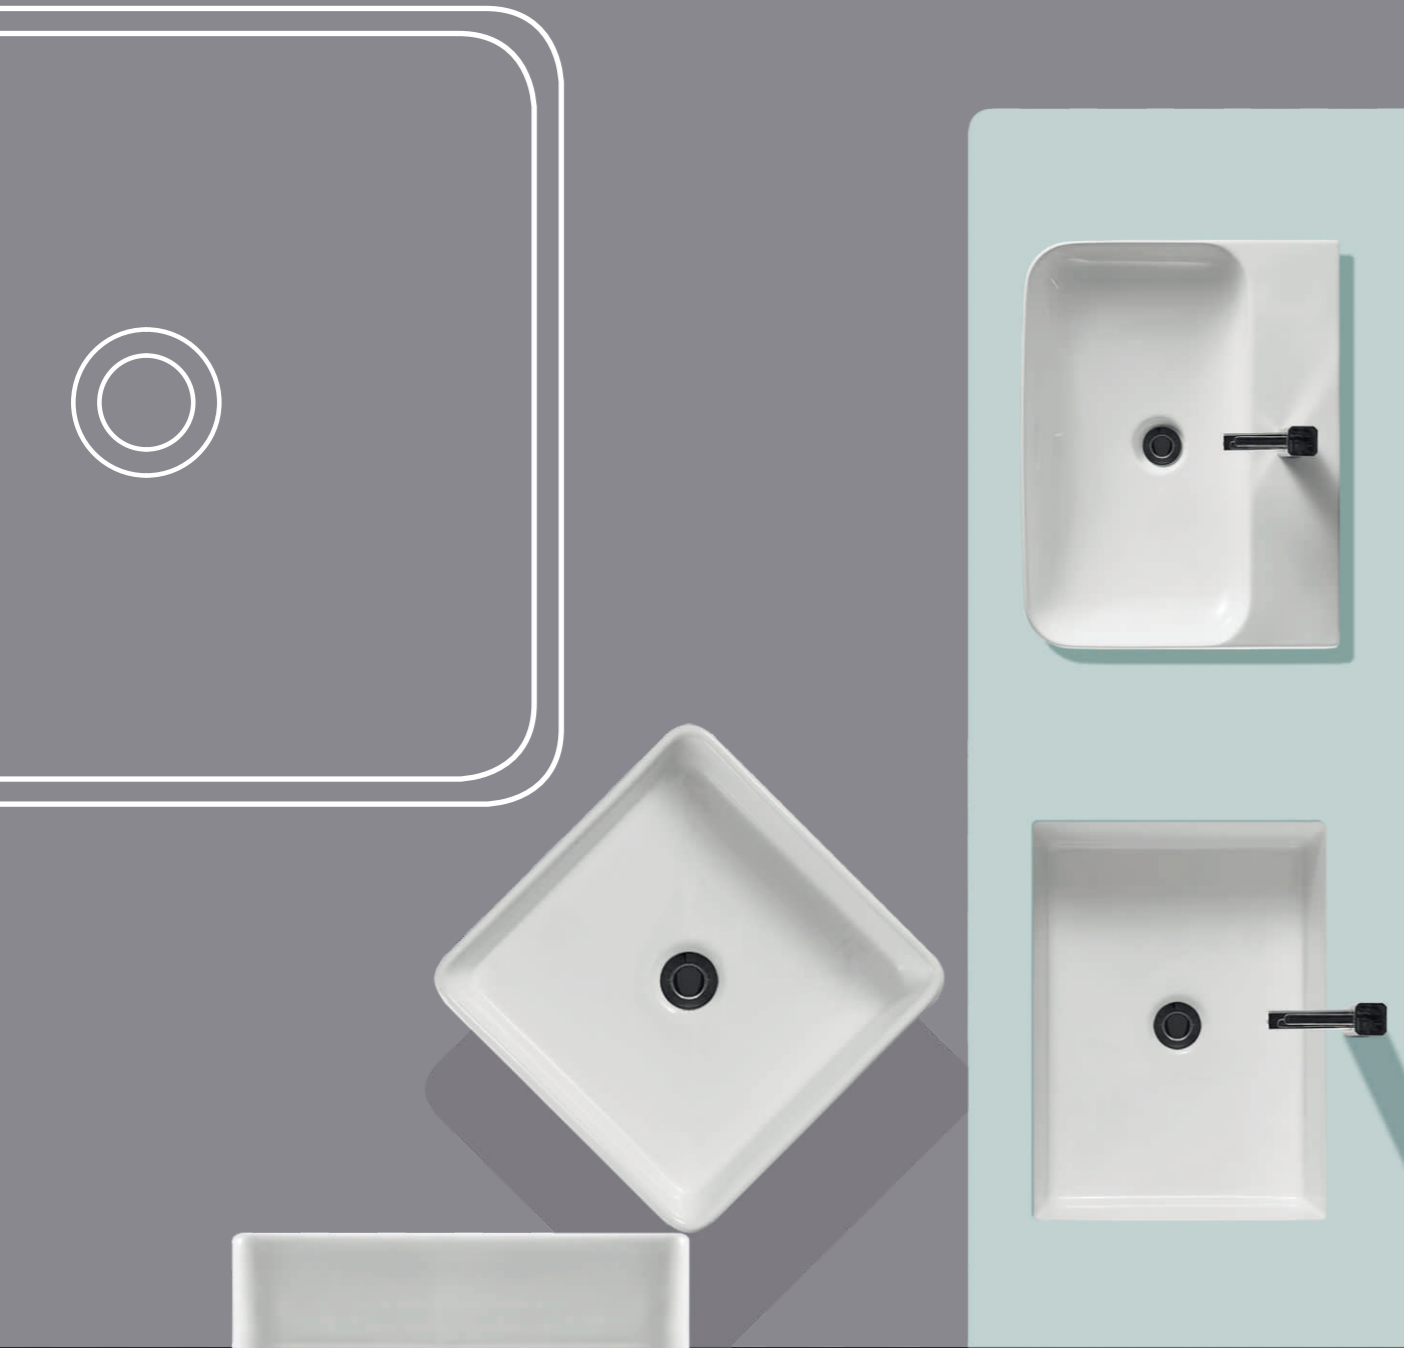

ROMANTIC

Based on geometry, a graceful curve is outlined. Simple romantic space, to show the nobility and purity of modernism. Perfectly conveys the temperament of sunshine, highlighting the elegance.

ART BASIN

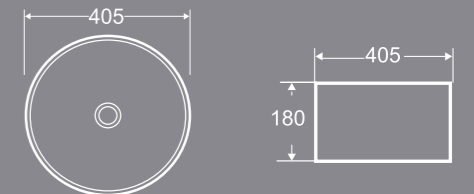

Simple edges and frames, elegant and chic. Lighting with glazed white, generous and artistic, it satisfies modern people's endless pursuit of home life.
